REPAY Vault

The REPAY Vault is seamlessly integrated within the Sage 100 solution, allowing you to store customer payment credentials off of your own server for future use. REPAY Vault is a PCI/DSS compliant gateway with multiple reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

Level 3 B2B Rates

Level 3 processing allows you to receive discounted rates on Visa® and Mastercard® B2B transactions. Level 3 transactions use lower interchange rates than Level 1 and Level 2 transactions. Merchants wanting to receive Level 3 processing rates must be on an Interchange Plus pricing plan. The Sage 100 integration from REPAY automatically sends the required data to ensure maximum cost savings for B2B transactions.

ClickToPay

ClickToPay is an integrated online payment portal that offers a simple and secure way to have invoices paid directly from Sage 100. Simply send a copy of the invoice or sales order via email. The customer opens the email and selects their preferred payment method - either credit card or ACH. ClickToPay allows customers to create a profile and save card or bank account information on file for future payments.

REPAY® ClickToPay

Fast, Convenient, Secure Mobile Payments

ScanForce Mobile Sales for Sage 100 allows your sales team to create invoices in the field, at tradeshow, or in your showroom and process secure payments immediately when integrated with REPAY. Available on rugged bar code scanning devices, iOS, Android, Windows PCs, and laptops, your sales team can view and sell the right quantities, capture signatures, and print receipts in the palm of their hand. Sell more, get paid faster, and increase customer satisfaction by offering an easy and secure way for customers to transact with you.
