## REPAY Vault

The REPAY Vault is seamlessly integrated within the WooCommerce software, allowing you to store customer payment credentials off of your own server for future use. REPAY Vault is a PCI/DSS compliant gateway with multiple reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

## WooCommerce Integrated Payments

Our WooCommerce-ready hosted form is perfect for developers, partners, and merchants to adopt as a part of their payment processing solution. The REPAY solution was designed to seamlessly integrate with the WooCommerce payments page to sit on our servers and process Level 3 data automatically at significantly lower rates. Protect yourself from security breaches and heavy fines while providing an easy to use payment option for customers.

Our three-step redirect API can be easily configured to suit your needs. Our in-house development team is standing by to walk you through the process today.

Type	Status	ID	Amount
Card Sale	Approved	4455865290 PMT-001402	20.00
Card Sale	Approved	4456059634 1234 4456511826	90.00

## Level 3 Rates

Level 3 processing allows you to receive discounted rates on Visa and Mastercard B2B transactions. Level 3 transactions use lower interchange rates than Level 1 and Level 2 transactions. Merchants wanting to receive Level 3 processing rates must be on an Interchange Plus pricing plan. The REPAY WooCommerce integration automatically sends the required data to ensure maximum cost savings for B2B transactions.

REPAY Payments

Accept credit card payments using REPAY Payments.
