Faster Funding

REPAY offers omni-channel B2C and B2B integrated payment solutions for every business. REPAY is a gateway and processor that is trusted by thousands of merchants daily to process payments. If you do not understand your bill, we will educate you on how you are currently priced.

REPAY works diligently to reduce risk and provide the best payment solutions for customers. Our payment solutions enable customers to benefit from multiple payment methods, Level 3 discounted rates for B2B transactions, increased cash flow with online payment portal capabilities and seamless integration to help customers save time. REPAY is seamlessly integrated with multiple leading ERP, eCommerce, CRM, POS and Mobile applications.

REPAY Vault

The REPAY Vault is seamlessly integrated within the Sage 100 solution, allowing you to store customer payment credentials off of your own server for future use. Our Vault is a PCI DSS compliant gateway with multiple reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

Level 3 B2B Rates

Level 3 processing allows you to receive discounted rates on Visa[®] and Mastercard[®] B2B transactions. Level 3 transactions use lower interchange rates than Level 1 and Level 2 transactions. Merchants wanting to receive Level 3 processing rates must be on an Interchange Plus Pricing plan. The Sage 100 integration from REPAY automatically sends the required data to ensure maximum cost savings for B2B transactions.

ClickToPay

ClickToPay is an integrated online payment portal that offers a simple and secure way to have invoices paid directly from Acumatica. Simply send a copy of the invoice or sales order via email. The customer simply opens the email and selects their preferred payment method - either credit card or ACH. ClickToPay allows customers to create a profile and save card or bank account information on file for future payments.

Easy Payments with ClickToPay + InstaDocs

InstaDocs provides Sage 100 customers the first and only embedded document management solution that also integrates with REPAY ClickToPay. By leveraging the capabilities of these solutions with the Sage 100 paperless office, your system can automatically email the customer a copy of their invoice, plus all of the associated documents stored in InstaDocs. The customer receives the email with all the attachments and a link to the REPAYClickToPay invoice portal to easily (and quickly) pay. The payment will come right back into Sage 100, preventing an AR clerk from having to make a cash receipts entry or call the customer to get payment.
